UX/UI Product Designer @Freelance	Sep 2022 – Present	Design digital products across UX/UI, interaction design, design systems and prototyping for international clients. Recent work includes CLAAS, unifying the CLAAS and 365FarmNet design systems, and Designmodo, supporting product quality across Postcards and Siter.io through workflow testing, product documentation and bug reporting.
Product Designer @mooving	Mar 2021 – Sep 2022	Designed the UX/UI for a UK property marketplace connecting buyers and sellers. Worked across property search and discovery, listings, seller flows, saved searches, messaging and viewing requests, translating product requirements into responsive interfaces and interactive prototypes in Figma.
Product Designer @Fuselab	May 2020 – Mar 2021	Designed UX/UI for complex digital products and data heavy dashboards for North American clients. Worked with product owners and project managers to translate business requirements and complex information into clear user flows, interfaces and interactive prototypes.
UX/UI Designer @Enspire	Jul 2019 – May 2020	Redesigned the Enspire company website and subsequently designed responsive web experiences for US-based clients, working across UX/UI, visual design and client requirements.
Product Designer @Ideaction	Nov 2018 – Jul 2019	Led UX/UI design for mobile applications from initial concepts through final client approval. Worked directly with clients to define requirements, develop user flows and translate product needs into final interfaces.
Product Designer @Freelance	Mar 2015 – Nov 2018	Designed web and mobile experiences for clients including Ogilvy Moldova, Terranet, FloAgency, Prototype Interactive, Granat, Gramatic, Plyo.io and Elkanodata.
Product Designer @Footballoid	Aug 2014 – Mar 2015	Designed UX/UI for a startup platform connecting young football players, sports agents and clubs, working across the product experience for multiple user groups.
Interactive Designer @Flosites	Dec 2013 – Aug 2014	Designed websites and mobile experiences for luxury sector clients, working across UX/UI, interaction design and high-fidelity motion prototyping in Adobe After Effects.
Web Designer → Lead Designer @Difiz	Aug 2012 – Dec 2013	Joined as an intern and progressed to Lead Designer within a year. Worked across UX/UI, web and mobile product design, including the Delivery Club website and iOS/Android applications.
